

DRIPIFY

The trend for LinkedIn automation

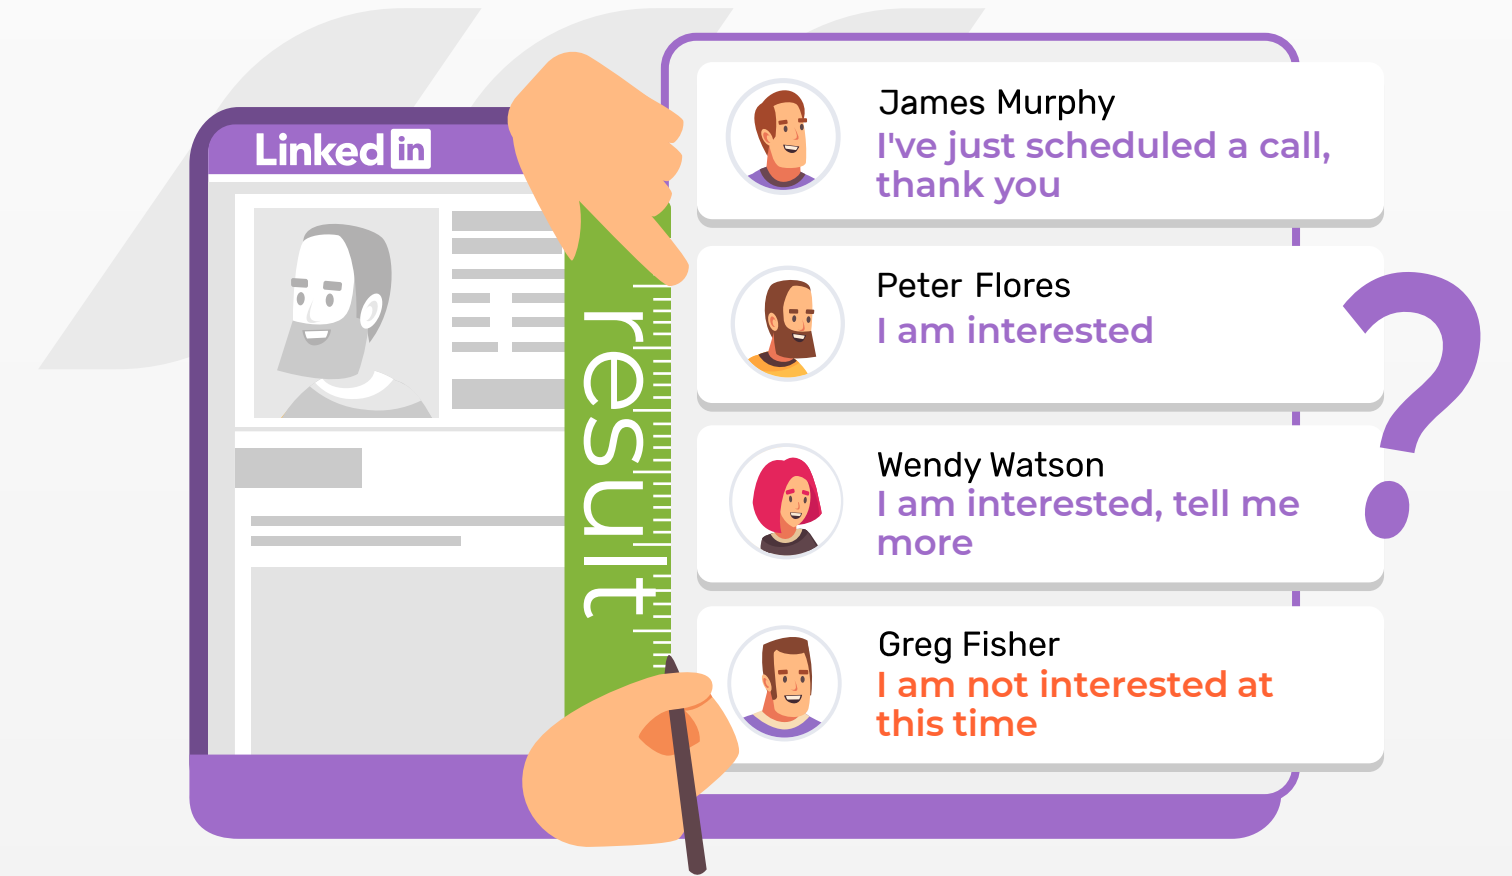

The interest for the term
"LinkedIn Automation" in
Google has reached its
all-time maximum

• Why automate LinkedIn

Prospecting takes much time

No way to accurately measure results

Limited to 100 invitations per week

Complexity when using multiple LinkedIn accounts

High chances to be flagged by LinkedIn

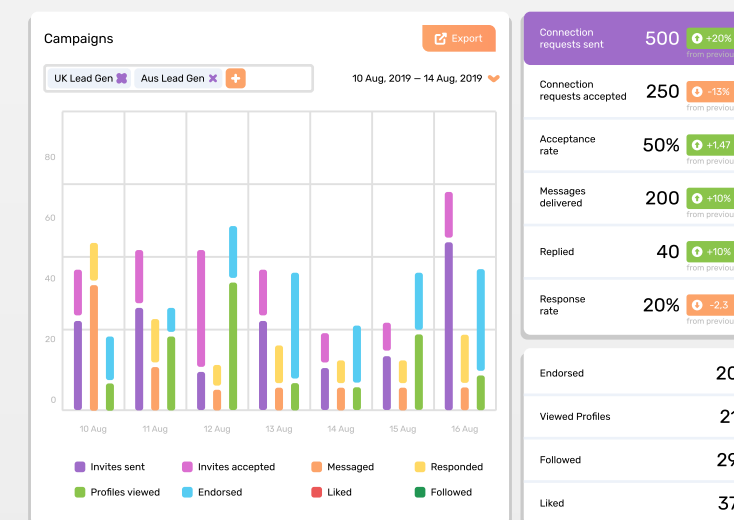

Prospects on
complete
autopilot

Works great
with multiple
LinkedIn
accounts

Imagine
there is a
software
that:

Provides
detailed
analytics &
reporting

Keeps your
LinkedIn
account
safe

Allows to
send 500+
invitations

Track results

Main features

Outreach to hundreds of prospects per week by running fully automated drip campaigns

...and that's what you can expect to see in drip campaigns

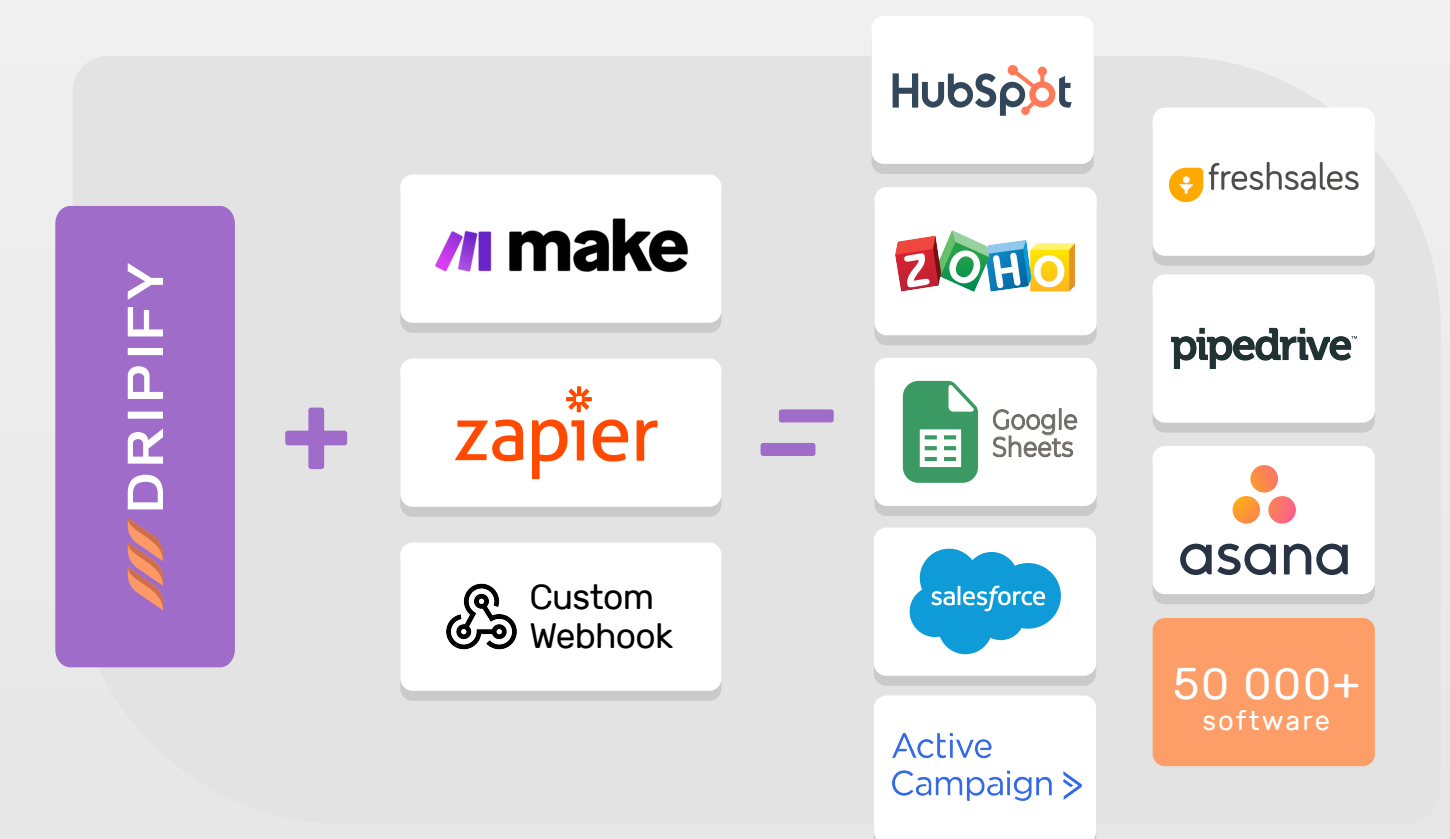

Works with all LinkedIn account types

A form titled 'Input your LinkedIn message' with a 'Save' button. It includes input fields for 'First name', 'Last name', 'Position', 'Company', 'Location', and 'More'. A dropdown menu is open, showing a list of variables: 'Industry', 'Number of connections', 'Top skill', 'Company followed by lead', 'Mutual connection name', 'University name', 'Profile type (Free/Premium)', 'Time in current role', 'Company location', 'Number of company employees', and 'Number of company followers'.

Message personalization with 15+ variables

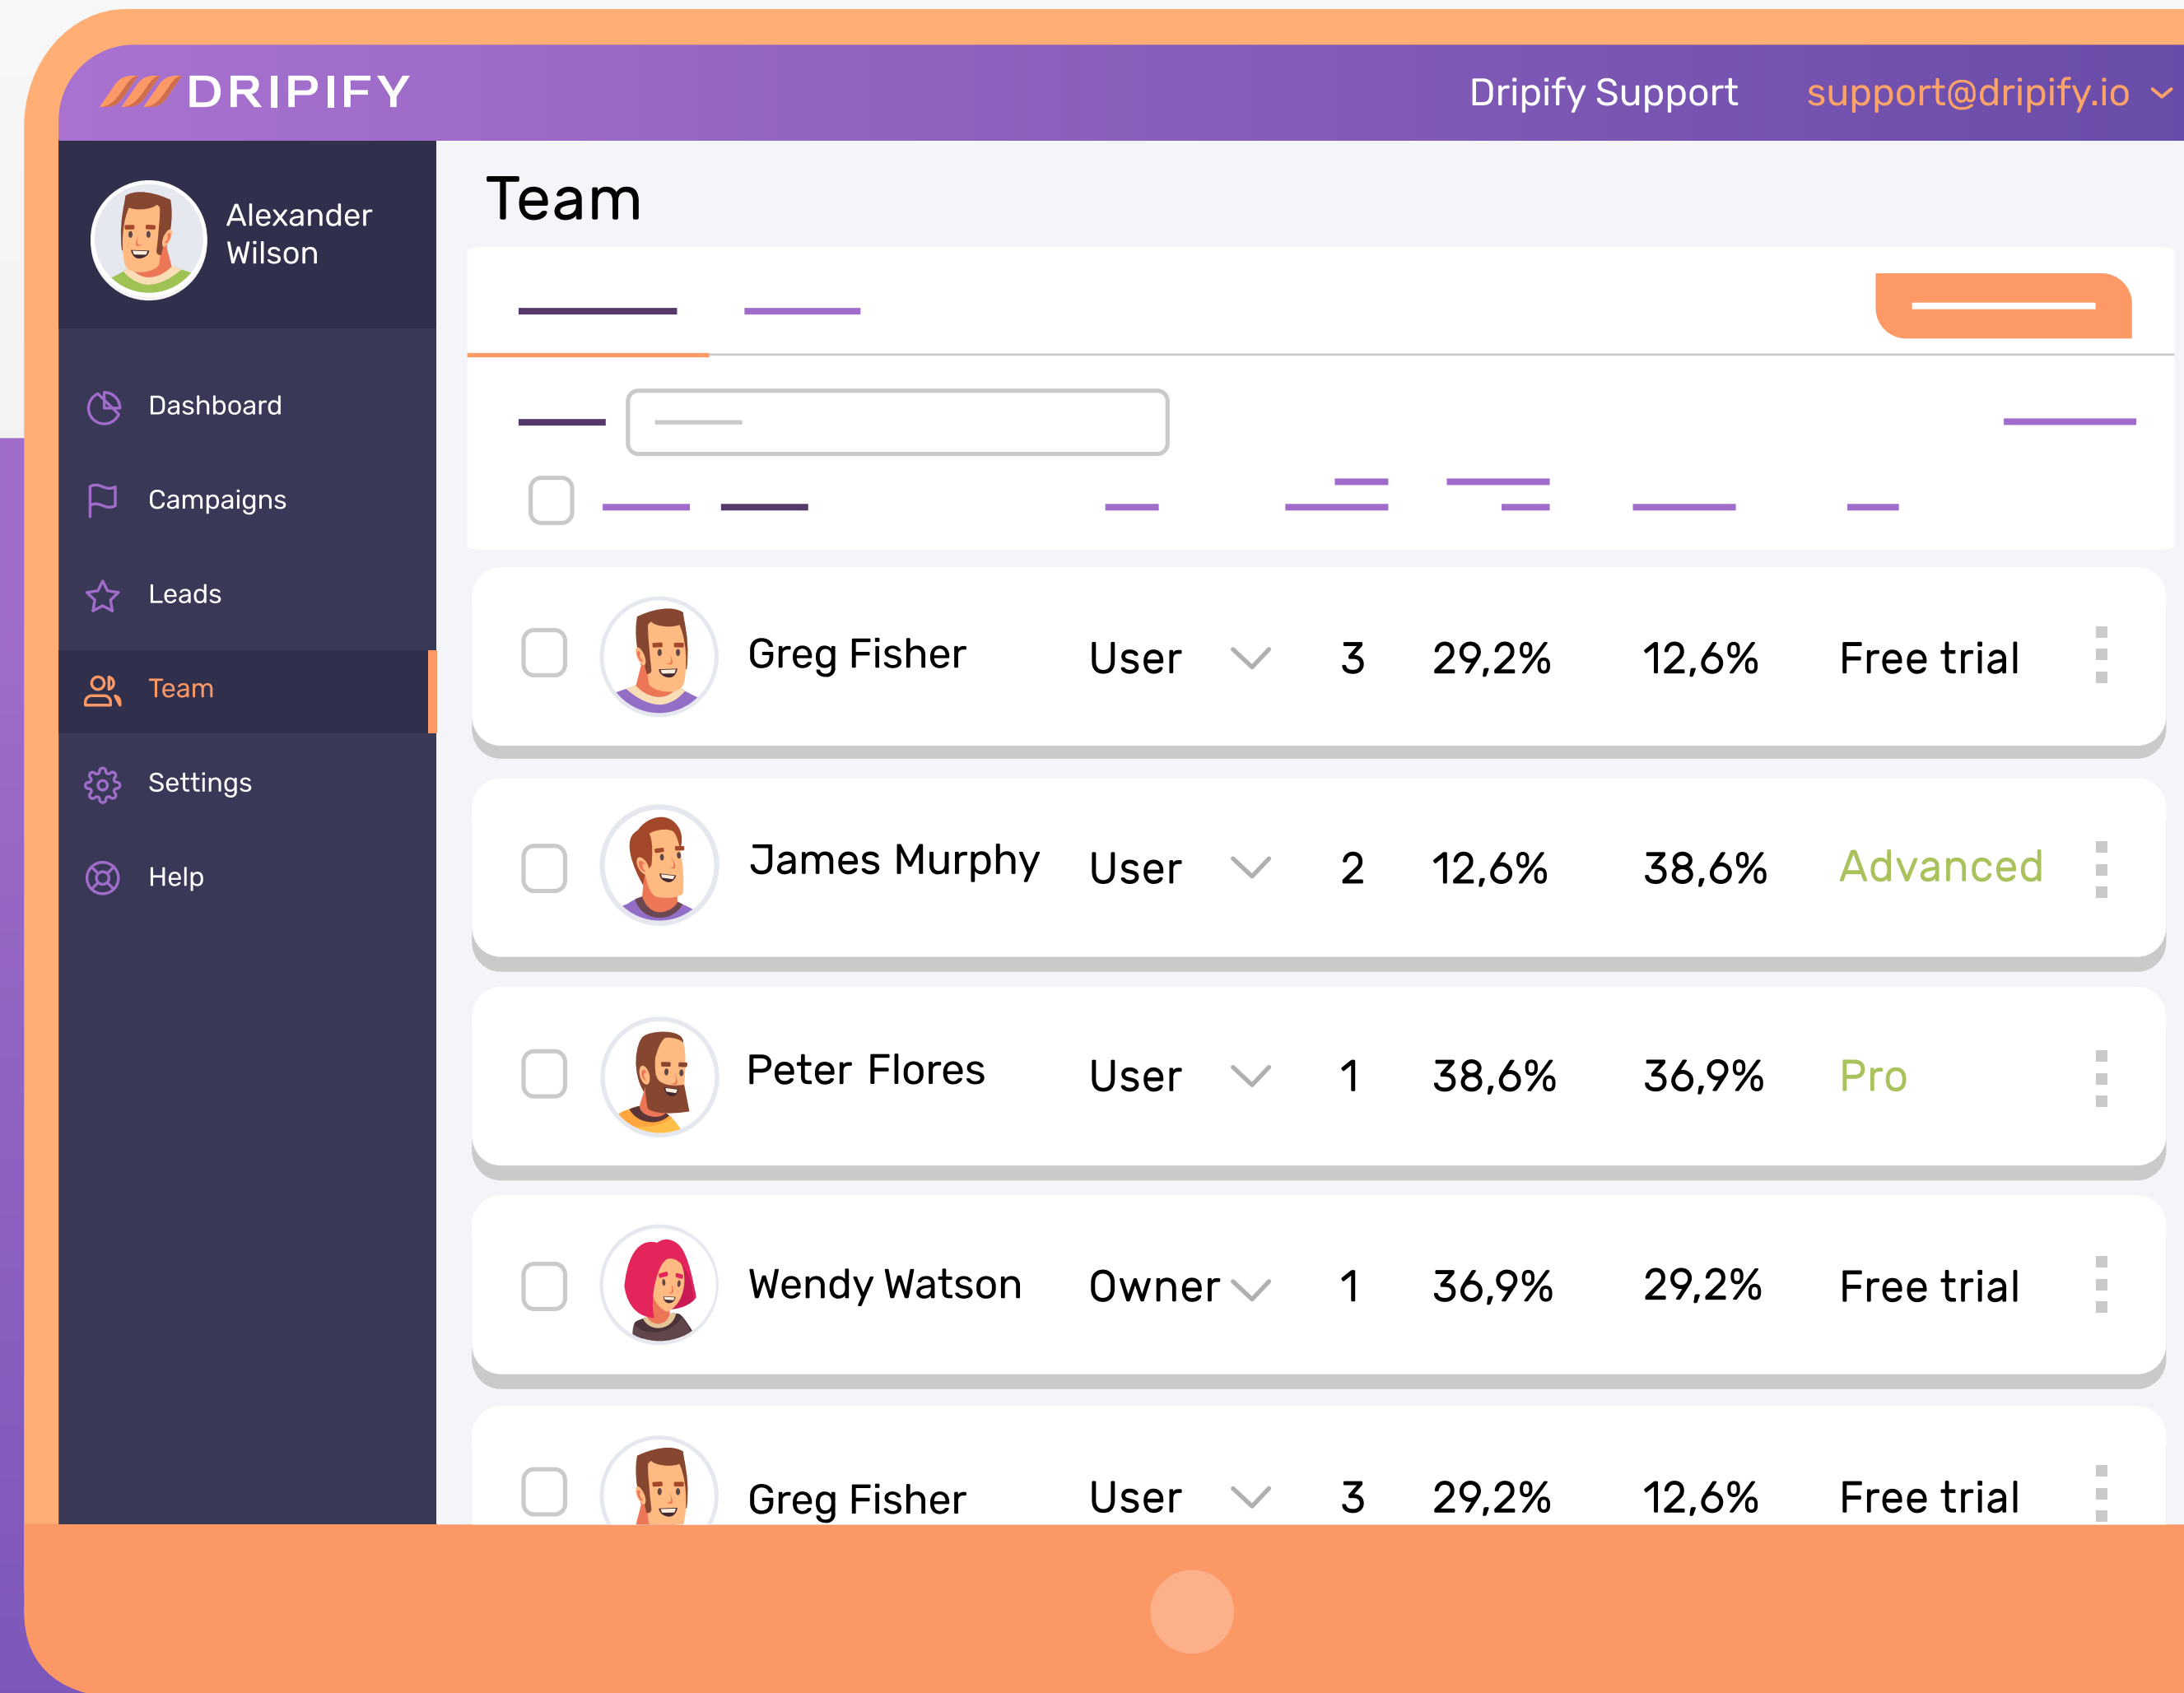

Pre-built sequence templates

Webhook integration

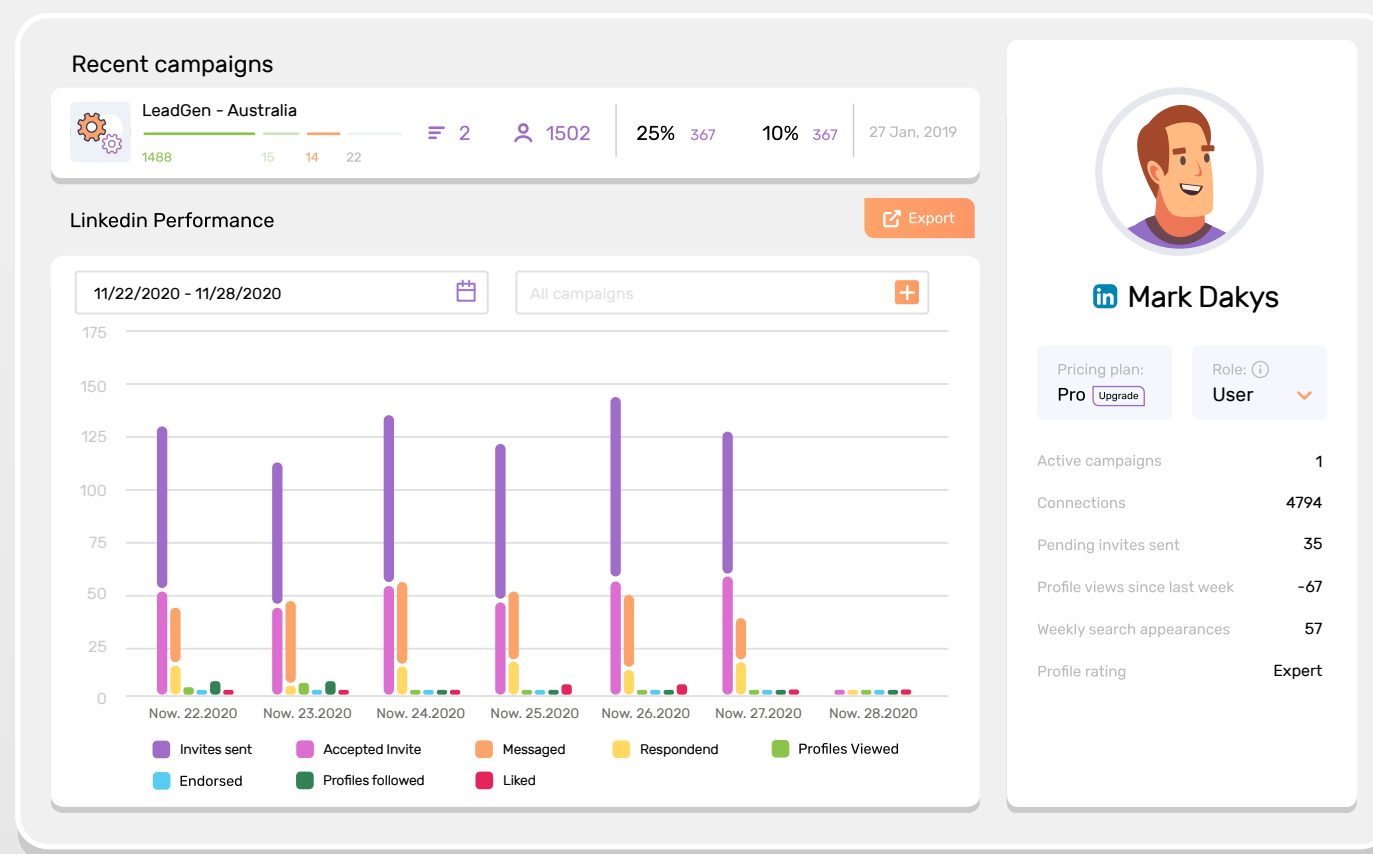

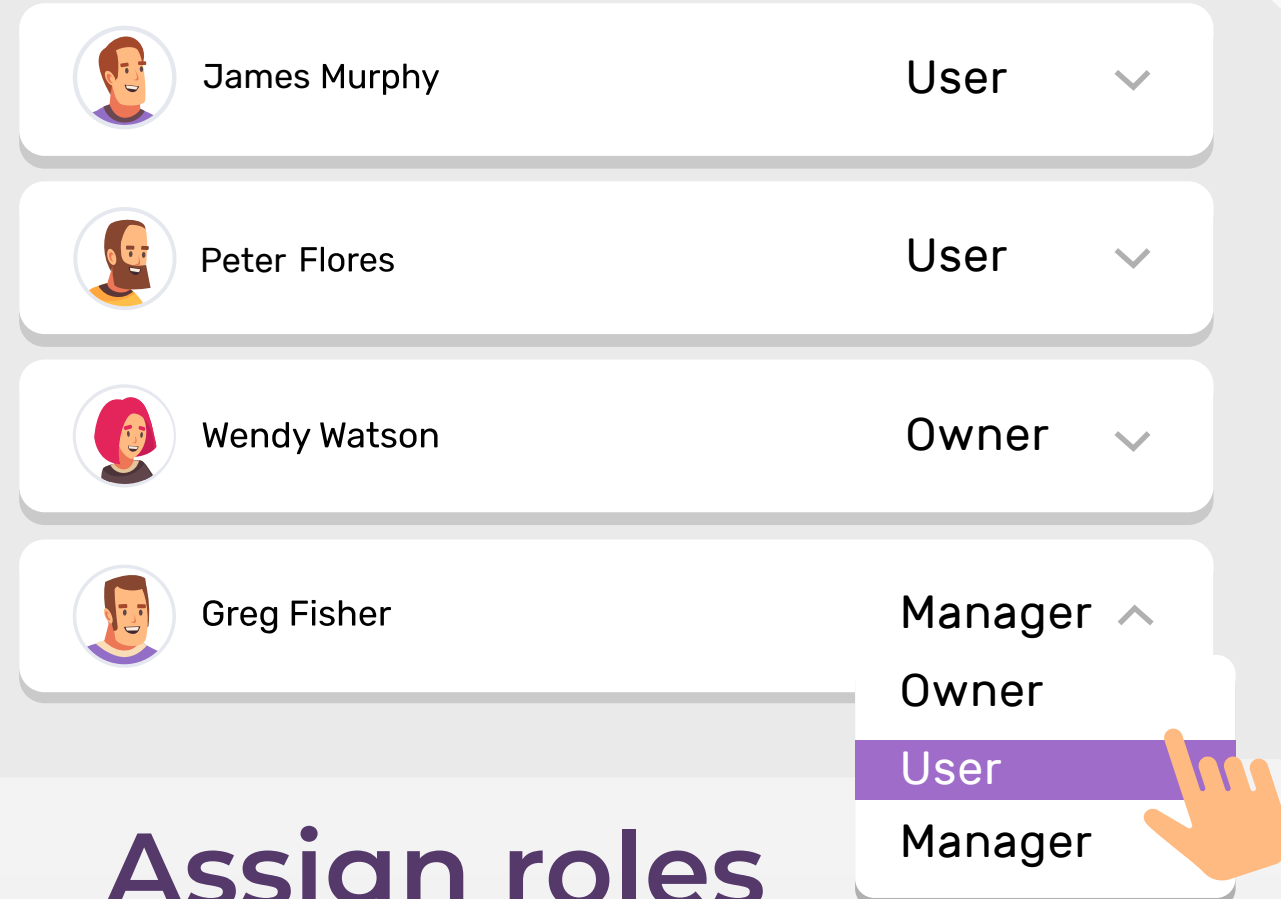

Main features

Expand your reach
on LinkedIn
by onboarding team
members to Dripify

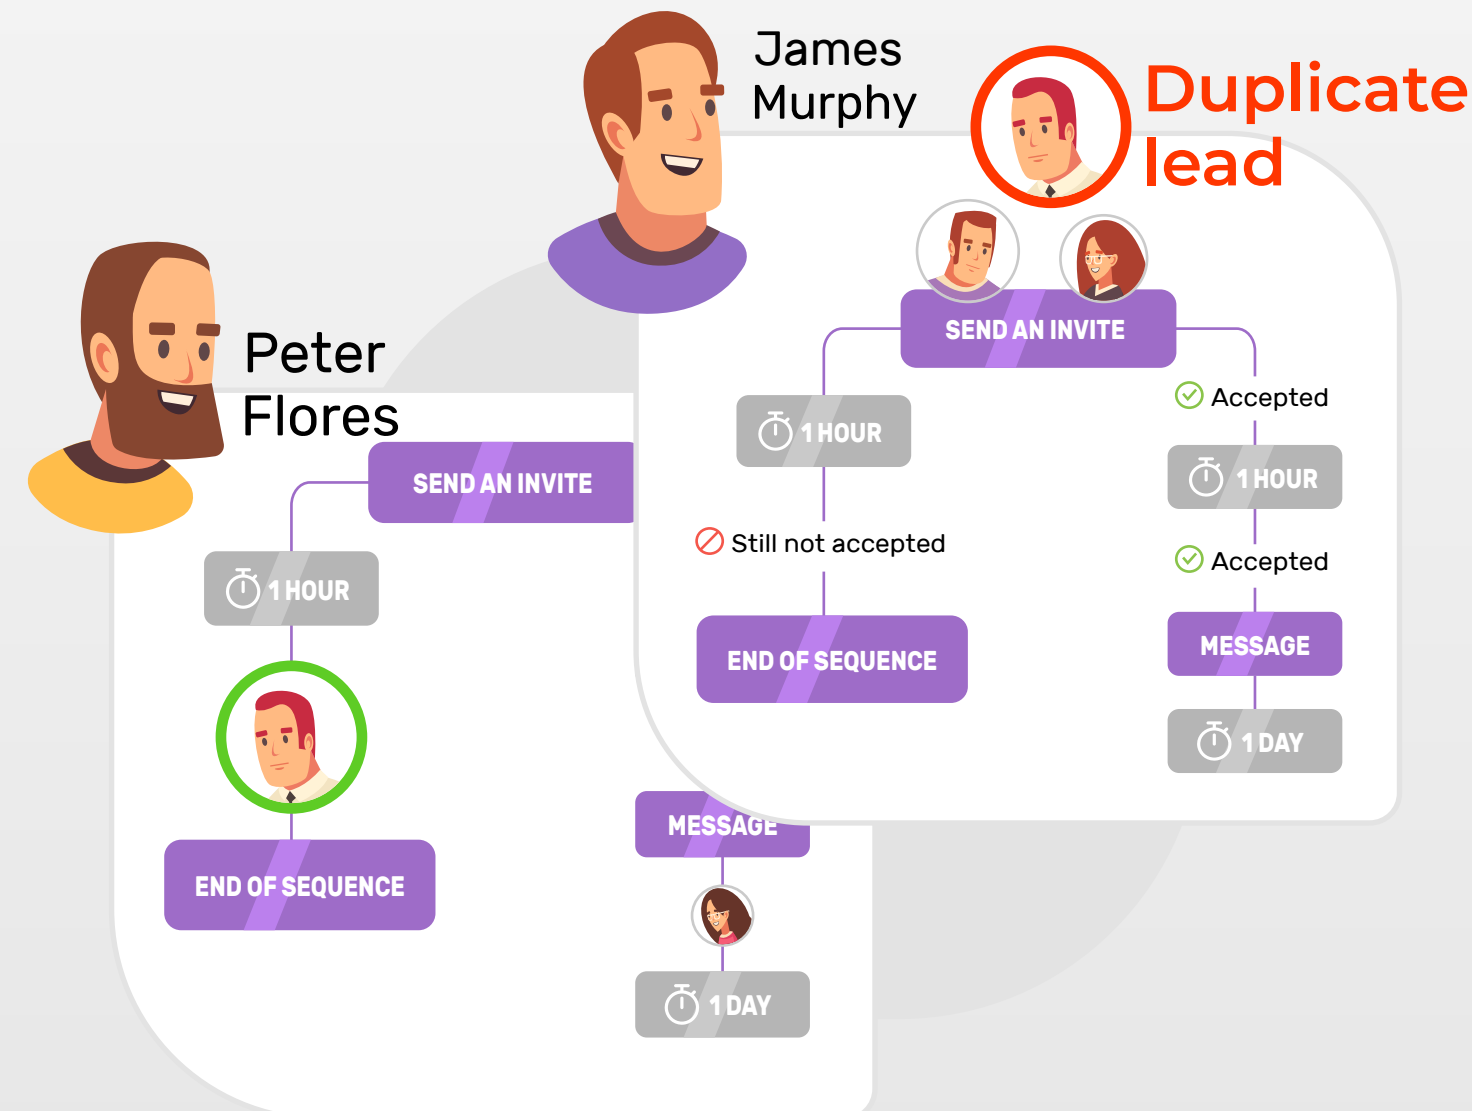

...and that's what you can expect while working with team members

Assign roles

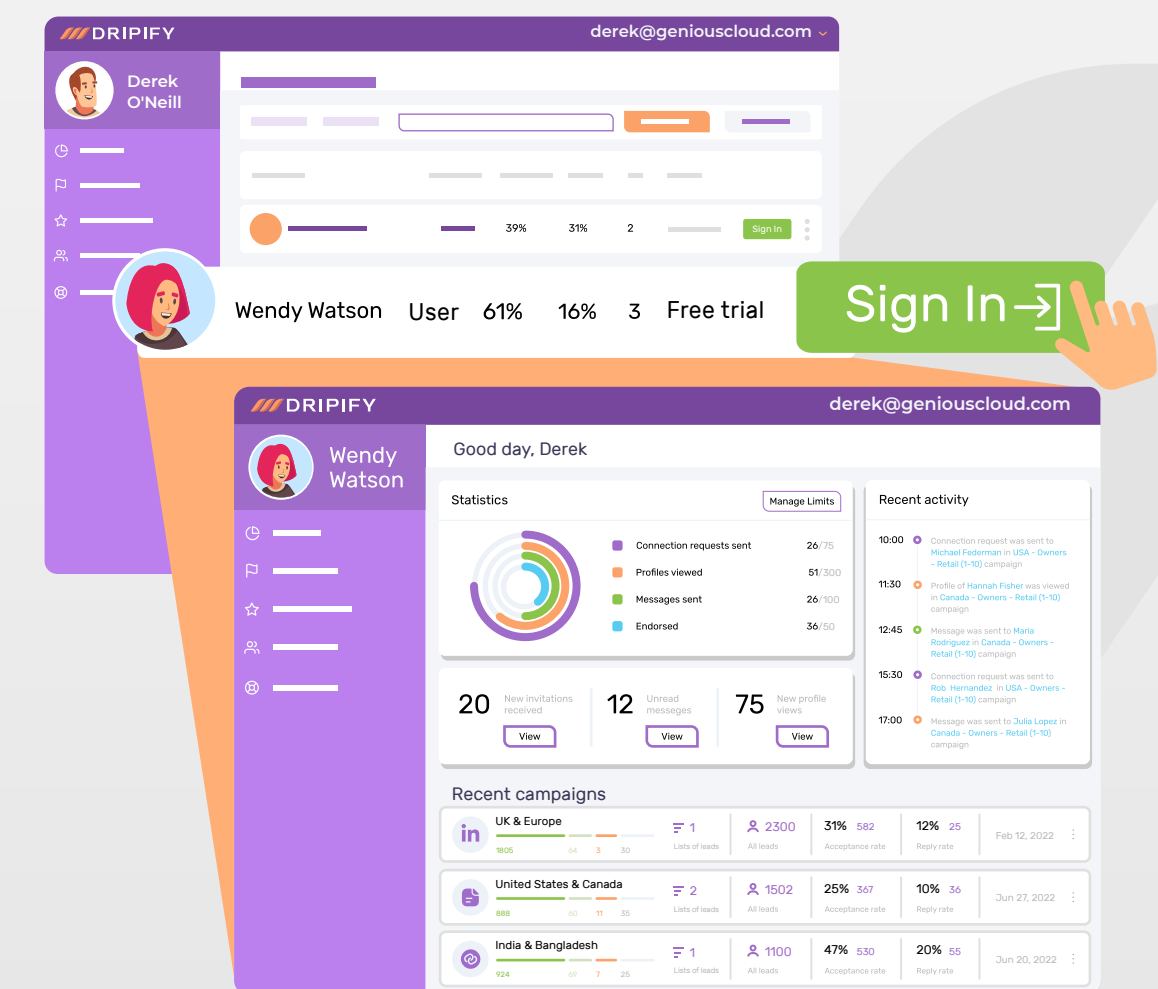

Track performance of each teammate

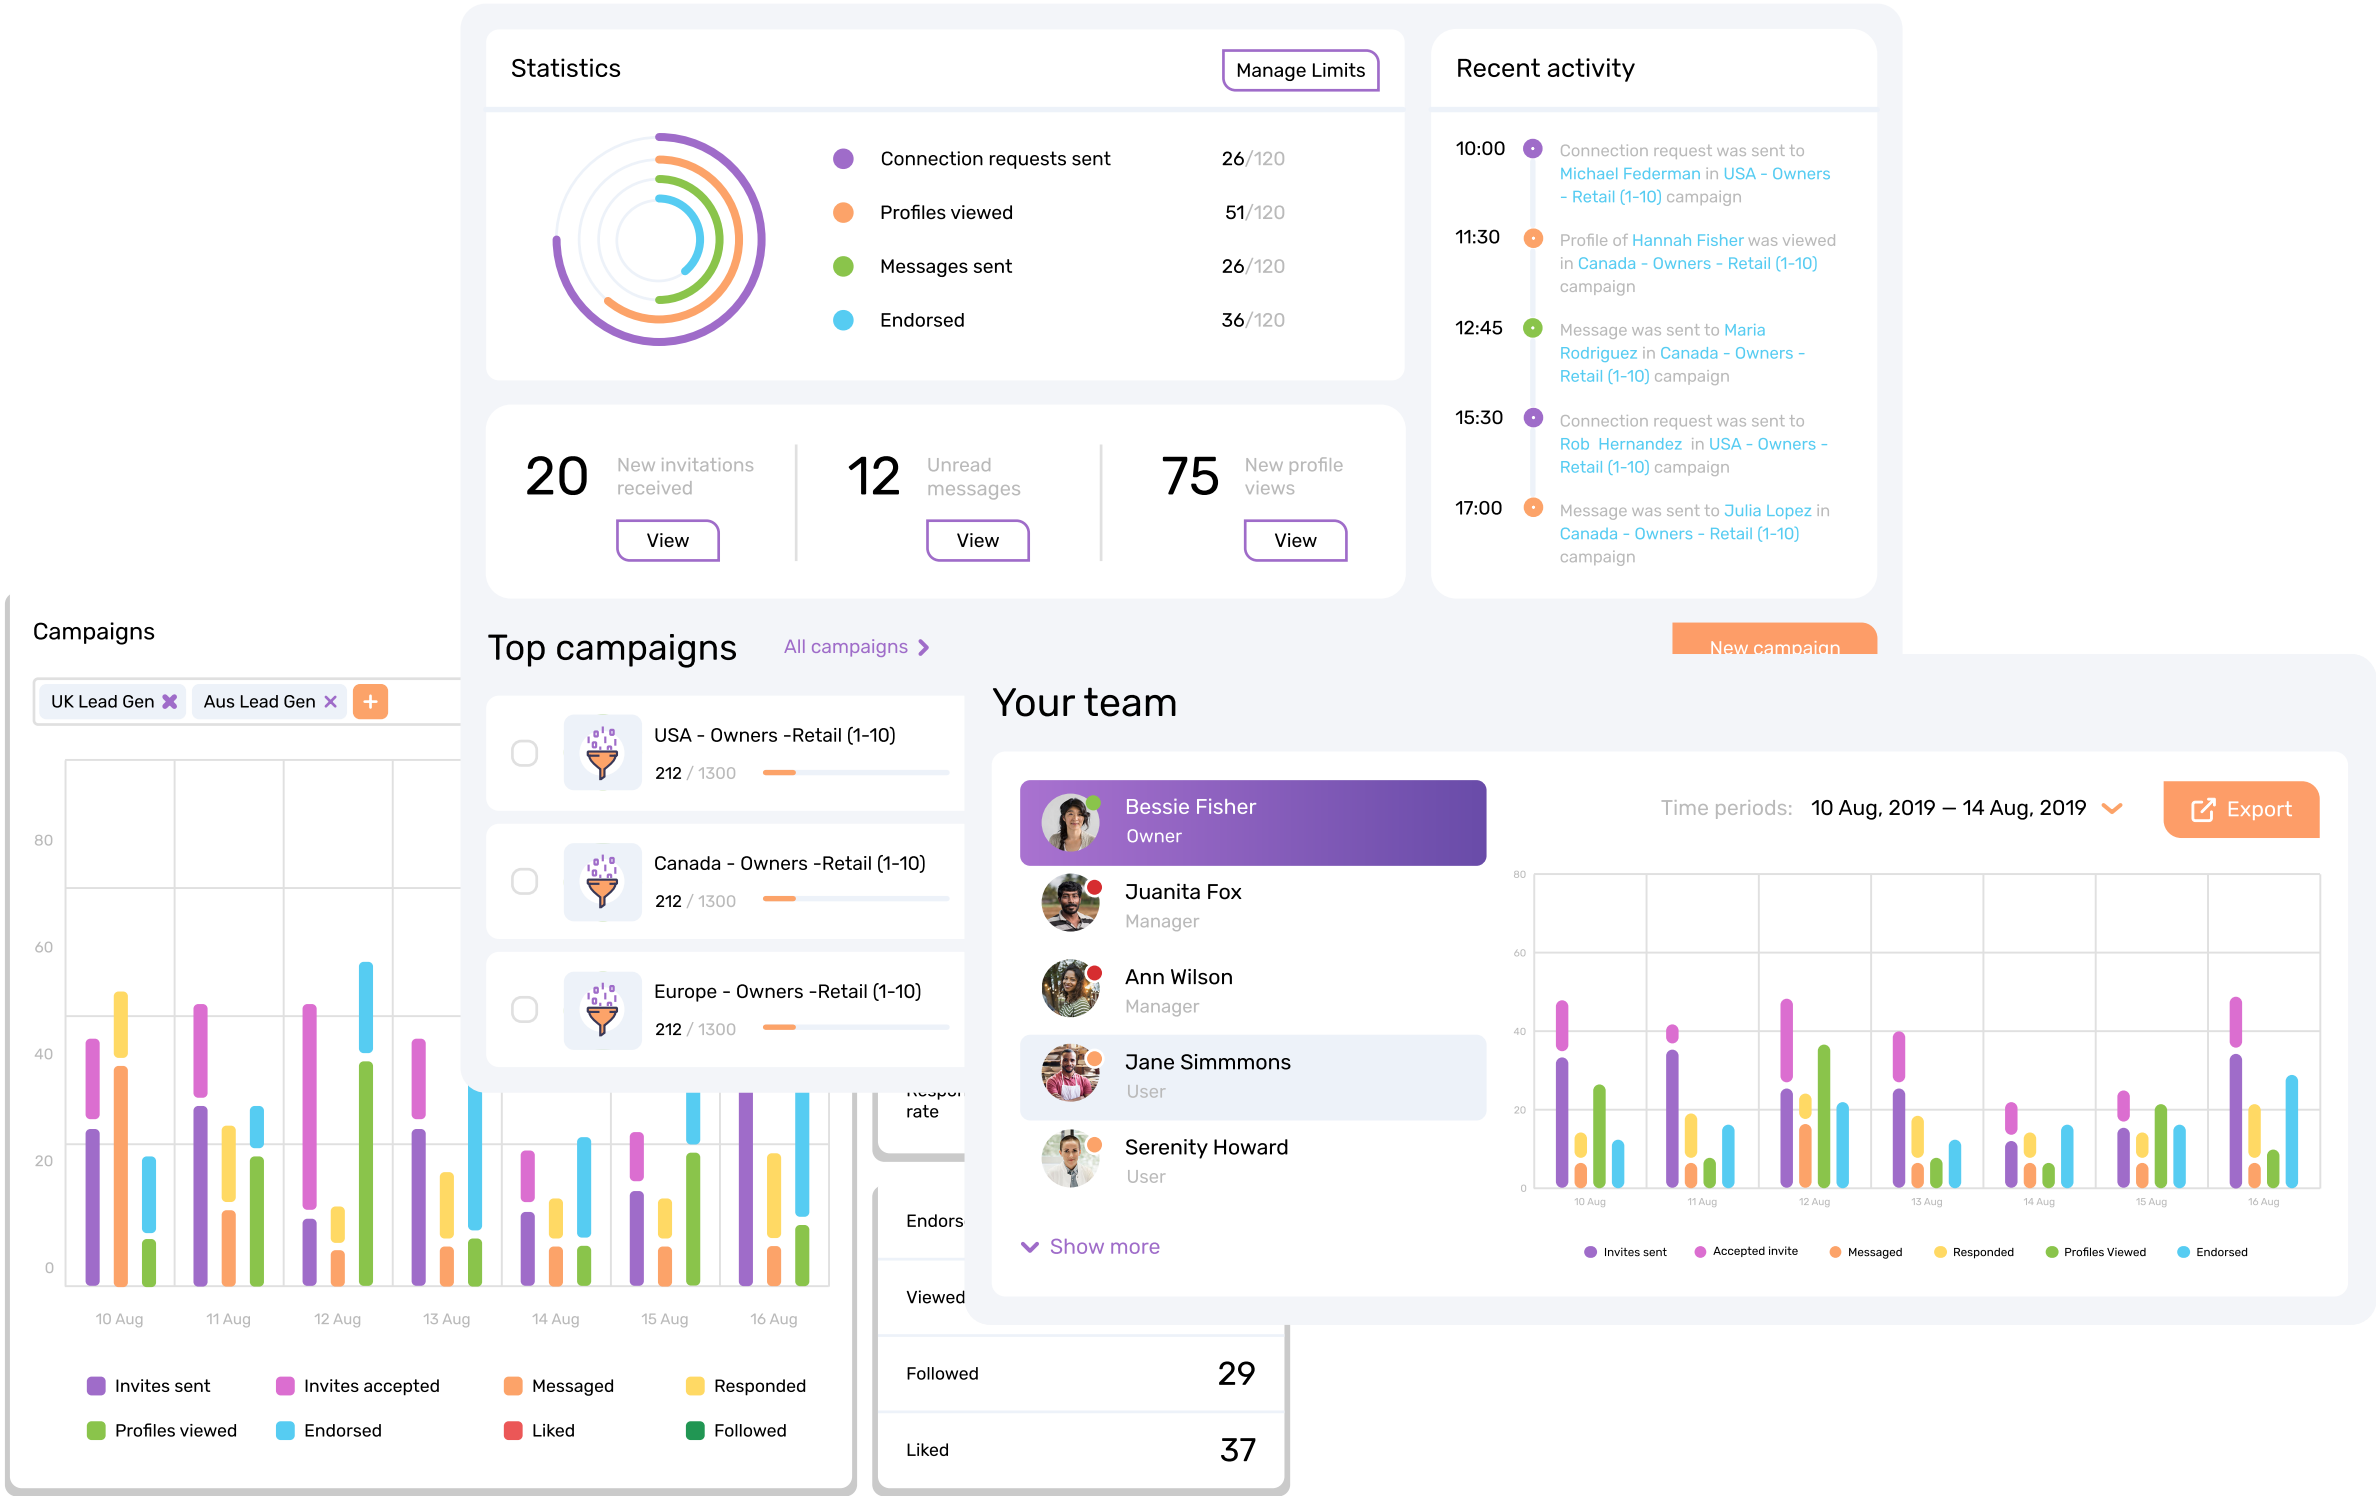

Avoid reaching out to same leads

Enter a team member's account with a single click

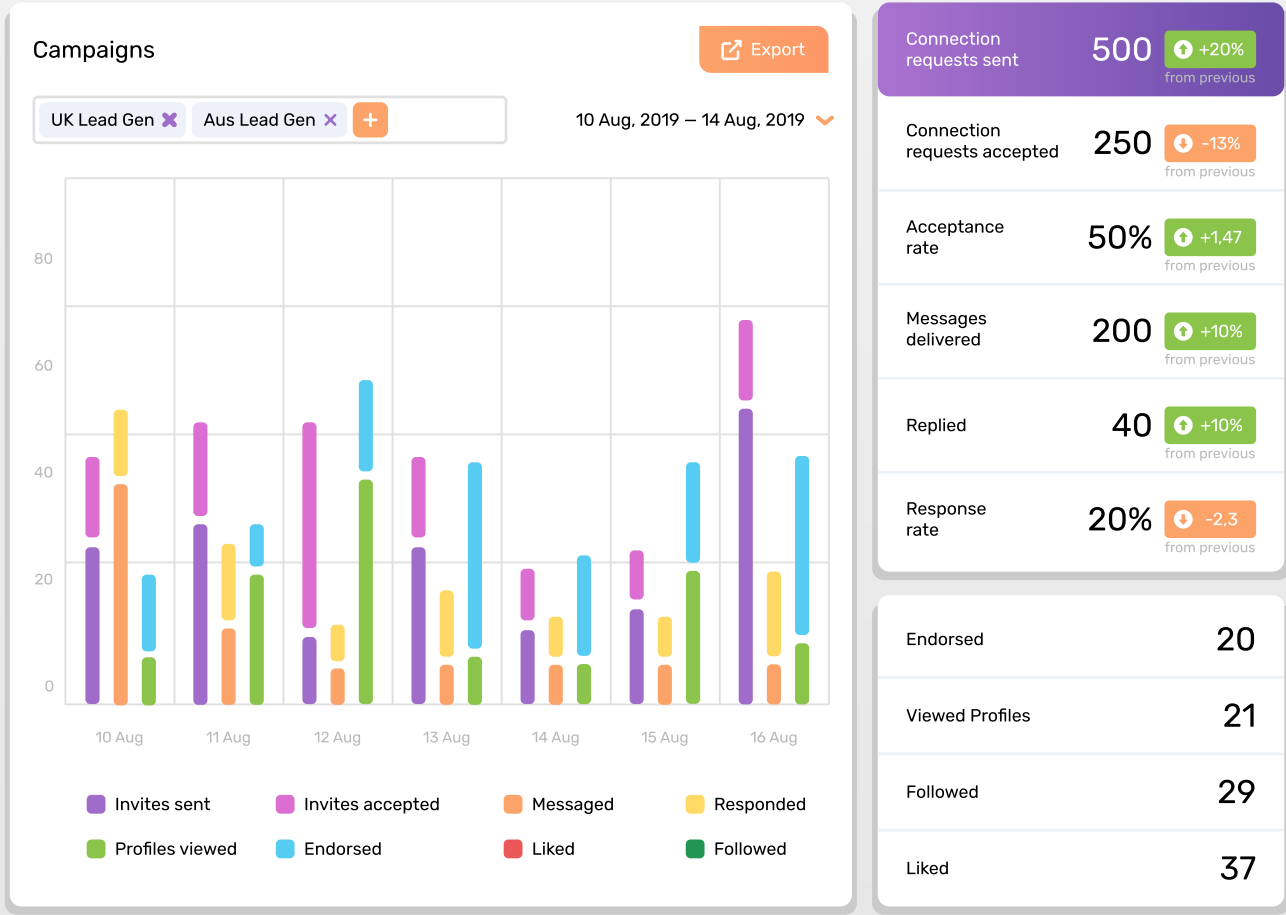

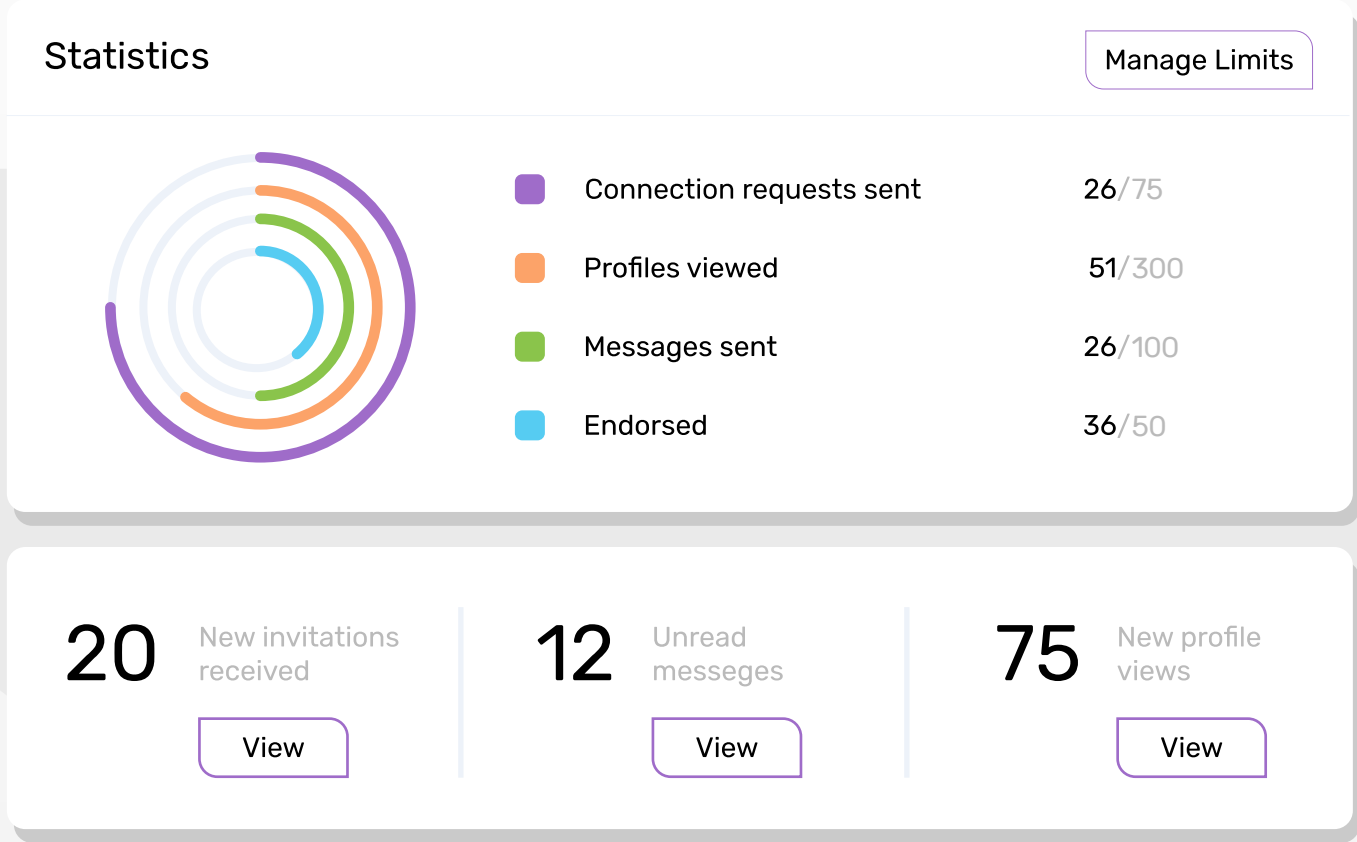

Main features

Evaluate results from prospecting by accessing account performance reports

...and that's what you can expect to see on the Analytics & Reporting pages
